

## BillieBars – BakFlip X4TS Fitment Guide

## **6" Rack Fitment**

- The 6" rack will mount to the t-slots but the cover cannot be rolled without removing the crossbars

## **11" Rack Fitment**

- The 11" rack can be mounted up to 24 Inches or 2 Feet from the edge of the cover on the tailgate side and still allow the cover to roll under the bar

## **17 and 24" Rack Fitment**

- The 17" and 24" rack can be mounted up to 58 Inches or 4.83 Feet from the edge of the cover on the tailgate side and still allow the cover to roll under the bar.
- The Weather Stripping of the cover will rub on the Aluminum Vertical Bar of the rack.
- You can still mount the forward most bar (Cab Side) near the Cab past 58 Inches and strap/secure the roll of the cover.
